**Utility Availability:**

- **Steam : dry Saturated/ any other:.....**  
Flow (kg/hr)..... , Pressure (g): .....Kg/cm<sup>2</sup> ,Temperature..... (°C)
- **Thermic fluid system:**  
Flow (kg/hr)..... , Maximum capacity (Kcal/hr) :.....  
Maximum Temperature Level: .....(°C).
- **Cooling Water:**  
Flow (kg/hr)..... , Head available:..... mwc,  
Temperature Inlet :.....(°C) Out let desired:.....(°C).

- **Chilled water:**  
Flow (kg/hr)..... Head available.....mwc  
Temperature desired :Inlet: .....(°C). Out let :.....(°C).
- **Other temperature Level available:.....**  
**Maximum capacity of Refrigeration system:.....Kcal/hr / TR**
- **Instrument air supply:** Head -----kg/cm<sup>2</sup>(g); Quantity-----Am<sup>3</sup>/hr

**GENERAL INFORMATION**

- Material of construction:
- Process Equipment:
- Process Piping:
- Utility Piping:
- Where will unit be installed: Indoor/ Outdoor
- **Space available:**  
Horizontal : Length.....mm x Width.....mm  
Vertical : Height.....mm.
- **Instrumentation:**  
Level of automation desired: full / partial / none:
